APPLICATION RATE OPTIONS

1. Apply 1 quart per acre if there is a large amount of residue.
2. Apply 1 pint per acre if there is a low amount of residue.

APPLICATION INSTRUCTIONS

1. FAS Rot can be alone.
2. For better performance of FAS Rot, add 2 qts - 2 gallons of FAS Humate and 2-5 gallons of 29-0-0-3.
3. Put FAS Rot in the tank first.
4. FAS Rot can be blended with most fertilizer and herbicides.
5. 7-20 gallons of water is sufficient for ground rigs.
6. 2-5 gallons of water is sufficient for aerial applications.

BENEFITS

1. Provides a biological and sugar source to stimulate soil fungi and microbes.
2. Breaks down residue.
3. It is in a liquid form that mixes well with everything, doesn't freeze, and is easy to use.

Seller warrants that FAS Rot conforms to its chemical description and will perform as stated on the label when used according to directions and under normal conditions of use. Neither this warranty, nor any other warranty of merchantability, expressed or implied, extends to the use of this product contrary to the label directions. Buyer assumes all risks if FAS Rot is used in any manner or condition other than those specifically set forth on the label.

WARNING: Keep out of reach of children.

Dispose of container in accordance with local, state, & federal regulations.
